

**The legendary AFS,
and *Your Dog*,
would like to invite
YOU to try ...**

**Freeze-Dried
Real BEEF Nibblets**

Looking for a pure, ultimate smell & taste sensation that will peak canine senses ... bite-size, scrumptious morsels that *naturally* and *instantly* gain attention & obedience? You've just found it!

AFS would like to welcome you to the Magic of *Real* Meat, and invite you to give your canine elite what it has been longing for—a naturally delicious, super nutritious product that can turn meal-time or reward time into a tasty event!

Why? Because dogs instinctively need and crave *real* meat, and AFS' Real Beef Nibblets contain high quality real beef procured from U.S. government inspected meat packing plants; free-range cattle harvested for human consumption.

Our super blends of special selected vital organ meats along with finely ground meaty bones are fortified with vitamins and minerals to ensure complete and balanced nutrition in every bite, exceeding AAFCO standards! In fact, our manufacturing methods preserve the all-important live enzymes, amino acids, Omega 3 and Omega 6 fatty acids that are necessary for a healthy and strong foundation through all life stages.

Just one sniff and your dog will come alive! With just one taste, your dog will beg for more. Try to hide it? Your dog will find it!
